

Publishing Scientific Research

For more information, visit us on the Web!

<http://www.journals.elsevier.com/future-generation-computer-systems/>

<http://www.journals.elsevier.com/journal-of-computational-science/>

Where to Publish?

Elsevier publishes two premier international journals that together cover the field of computational science!

**Future Generation
Computer Systems (FGCS)**

**Journal of Computational
Science (JoCS)**

What to Publish?

FGCS publishes papers discussing new developments in theories, methods, and applications of Computer **Infrastructure** and **Grid** Computing, as these relate to:

eScience

Semantic and knowledge based grids

HPC

Grid- and web-services

Scaling and performance theory

Scientific workflows

Cloud computing

JoCS publishes novel research results in **simulation**-based science across all scientific disciplines, including:

Multi-scale, multi-domain problems in science and engineering

Numerical methods

Complex models

Complex systems

Advanced numerical **algorithms**

Agent-based systems

ELSEVIER

Why Publish in FGCS and JoCS?

Indexing and Impact Factor

Both FGCS and JoCS are indexed by Scopus

FGCS 2011 Impact Factor ≈ 2 , highest of nearly all competing journals

JoCS 2011 SJR (SCImago Journal Rank) ≈ 1

Wide Readership

273,674 (FGCS) and 24,050 (JoCS) full-text PDF downloads in 2012.

Liberal article posting policy – accepted article can be posted in repositories like arXiv and on personal and institutional websites.

Speed

Average turnaround time, submission to acceptance – 30 weeks for FGCS (2012) and 20 weeks for JoCS (this includes author revision).

10 – 20 weeks faster than competing titles

Rapid Online Publication – Accepted article published online and assigned DOI within 5 days of acceptance.
